## Features of the Phantom:

- Features of polycarbonate lenses:
  - optically correct lens
  - light and comfortable
- Compact design, with low profile.
- Designed for a comfortable snug fit.
- In comparison to standard plastic, polycarbonate lenses are thinner and light, offer inherent uv protection, and offer a greater impact resistance than common plastics.
- High impact resistance
- Scratch resistant
- Stylized design
- Contour hugging wrap goggles fit snugly to you face to ensure a bigger and better viewing area.

# PHANTOMX

## Features of the PhantomX:

- Impact Resistant Polycarbonate face piece
- Compact design, with low profile.
